

Candice Weber

(804) 298-4451 | candiceweber7@gmail.com | www.candiceweber.com | linkedin.com/in/candicweberva

SUMMARY OF QUALIFICATIONS

- **Geospatial & Environmental Analysis:** Graduate student in VCU's School of Life Sciences and Sustainability with coursework in ArcGIS Pro, ArcGIS Online & StoryMaps, and spatial database modeling (site suitability analysis, watershed management, GTFS). Ability to integrate geospatial datasets for environmental decision-making and land/watershed planning.
- **Business Intelligence & Enterprise Data Management:** Over 14 years of progressive experience in reporting, data management, and grant administration at Virginia Commonwealth University. Serves as Manager of Reporting & Analytics and primary research administration SME for Power BI dashboard design and institutional reporting.
- **Environmental Monitoring & Applied Fieldwork:** Environmental Monitoring Fellow at the VCU Rice Rivers Center supporting the Concerned Citizens of Charles City County (C5), a grass-roots community environmental justice organization. Developing a community-based environmental monitoring program collecting air and water quality data, making data accessible to county residents through interactive dashboards and websites using HTML and R.
- **Operational Leadership & User Technical Support:** Demonstrated track record leading central administrative teams of 8+ staff, establishing standardized SOPs, and delivering technical support and training on complex data dashboards and applications.

EDUCATION

Virginia Commonwealth University (VCU), Richmond, VA Expected December 2026
Master of Environmental Studies Overall GPA: 3.9/4.0
Relevant Coursework: Environmental risk communication, landscape ecology, watershed geocultural mapping, environmental data management and analysis in R

Virginia Commonwealth University (VCU), Richmond, VA Expected December 2026
Geographic Information Systems Postbaccalaureate Certificate
Relevant Coursework: GIS modeling and mapping in ArcGIS Pro and Online, creation of StoryMaps, mobile field data collection, geospatial analysis in R using land use/land cover data

University of Illinois - Chicago (UIC), Chicago, IL August 2009
Master of Arts in Art History Overall GPA: 3.9/4.0
Thesis: "The Artifact Piece' and the Museum: James Luna's Critique of Ethnographic and Cultural Authority"

Webster University, St. Louis, MO May 2005
Bachelor of Arts in Art History Overall GPA: 3.8/4.0
University Honors: Daniel Webster Scholarship, Art Department Honors

SELECT ENVIRONMENTAL & GEOSPATIAL ANALYTICS PROJECTS

Urban Land Evaluation and Site Assessment (uLESA) Overlay Analysis & Field Assessment

VCU School of Life Sciences and Sustainability November - December 2025

- Performed a uLESA overlay analysis in ArcGIS Pro to evaluate site suitability for urban agriculture projects in Richmond, VA, incorporating environmental metrics, climate resilience, and equity criteria following the Hastings et al. (2025) methodology.
- Conducted an on-site field assessment at Oakwood Park to ground-truth model outputs, evaluating slope, soil characteristics, accessibility, and infrastructure to validate high-suitability model predictions.

Arvari Watershed Geomorphology, Mining & Water Structure Mapping

VCU School of Life Sciences and Sustainability January - May 2026

- Collaborated on a geo-cultural watershed map of the Arvari River basin (Northern India), mapping geomorphology of the Aravalli Range and geocoding over 400 community water structures (johads and anicuts) and streams from local PDF maps.
- Mapped spatial intersections between active quarries/mines and community water harvesting infrastructure to inform sustainable watershed planning and governance.

James River Pier Real-Time Water Quality Dashboard

VCU Rice Rivers Center

August 2026 - Present

- Ongoing collaboration with VCU RRC Data Manager to re-deploy the Center's real-time, publicly accessible water quality data dashboard using R.

Geology of the New River Trail

VCU School of Life Sciences and Sustainability

April - May 2026

- ArcGIS StoryMap highlighting geologic points of interest along the New River Trail, combining field observations with educational content to engage visitors and enhance their understanding of regional geology.
- Collected field data using ArcGIS Field Maps mobile application to document geologic features and site locations before bringing findings into an accessible StoryMap.

Curricular Linguistic Networks of Virginia Environmental Undergraduate Programs

VCU School of Life Sciences and Sustainability

May - December 2025

- Text analysis project and resulting R Shiny web application linguistically mapping Virginia undergraduate environmental degree programs.
- Performed frequency analysis using R to parse and pre-process course description text, weigh each course by credit hours and requirements of each program.
- Mapped and visualized the relationships between degree programs based on shared linguistic structures via multivariate data analysis methods after Dyer (2015).

PROFESSIONAL EXPERIENCE

VCU RICE RIVERS CENTER, Richmond, VA

May 2026 – Present

Environmental Monitoring Fellow

- Design approachable and sustainable volunteer monitoring programs for air and water quality assessment including creation of accessible training materials and protocols to engage community members in environmental data collection.
- Establish basic QA/QC plans for community air and water quality monitoring initiatives to ensure data integrity.
- Install and maintain hyper-local air quality sensors throughout the county and collect monthly water quality data at Herring Creek and Kimages Creek.
- Build public-facing dashboards and webpages using HTML and R, enabling county residents to access, visualize, and interpret real-time environmental monitoring data in an approachable format.

VIRGINIA COMMONWEALTH UNIVERSITY, Richmond VA

2012 – Present

Manager, Reporting & Analytics

2023 - Present

- Serve as primary research administration liaison with enterprise business intelligence team on enterprise-wide dashboard builds.
- Transform raw operational datasets using Power Query to independently build, model, and deploy interactive Power BI dashboards.
- Design and deploy Power Apps and Power Automate workflows to streamline data collection and management processes, enhancing organizational accountability, transparency and efficiency across teams.
- Produce comprehensive operational reporting for the VCU School of Medicine, including external institutional ranking submissions, faculty compensation, effort management, and workload distribution.
- Provide technical support and training to staff on report generation, data analysis, and system troubleshooting, enabling improved data literacy across the department.

- Develop and implement data validation protocols to ensure accuracy, integrity, and quality control across VCU research administration source systems for operational success.

Director of Training & Compliance, Research Administration

2022 - 2023

- Served as key member of grants leadership team establishing standardized onboarding, compliance monitoring, and SOPs for a high-volume central research office.
- Supervised senior administrators overseeing pre- and post-award compliance.
- Trained and mentored entry-level administrators, successfully advancing them into higher-level roles within 6-12 months.

Associate Director of Research Administration

2016 - 2022

- Directed an 8-person central grant administration team, overseeing workload distribution, performance evaluation, staff career development, and daily problem solving.
- Acted as primary School of Medicine liaison with enterprise IT team developing an online investigator financial management dashboard; provided ongoing user support and application training.
- Coordinated the submission of grant proposals including high-profile federal training grant and research contract proposals.
- Reviewed all School of Medicine grant proposals for unit-level compliance prior to their submission.

Senior Research Administration / Research Administrator

2012 - 2016

- Managed complete lifecycle of proposal submissions and grant awards (NIH, NSF, DoD, foundation, industry), overseeing budget development, financial reporting, and compliance.

NORTHWESTERN UNIVERSITY, Evanston, IL

2007 - 2012

Research Administrator

2010 - 2012

Graduate Program Coordinator

2009 - 2010

Graduate Program Assistant

2007 - 2009

- Grant management, proposal preparation, student records management, and program administration with progressive responsibility across university departments.

TECHNICAL SKILLS & CORE COMPETENCIES

- **Geospatial & GIS Technologies:** Esri ArcGIS Pro, ArcGIS Online & StoryMaps, GTFS Transit Data Integration, Land Evaluation & Site Assessment
- **Data Analytics, BI, & Programming:** Power BI, Power Apps, Power Automate, R (Data Wrangling, Land Cover Analysis, Text Parsing/Mining, Network Analysis), R Shiny Web Application & Dashboard Development
- **Environmental Science & Fieldwork:** Environmental Monitoring Fieldwork, Water Resource Mapping, Ground-Truthing Site Suitability
- **Leadership, Grants & Operations:** Project Management, Central Office Supervision (8+ staff), Grant Lifecycle Management (NIH, NSF, DoD), SOP Development, Executive Reporting, User Training & Technical Troubleshooting.

CERTIFICATIONS

Certified Stream Monitor

Virginia Save Our Streams, Izaak Walton League

Issued May 2026, Expires May 2028

Certified Research Administrator

Research Administrators Certification Council

Issued Dec 2012, Expires Dec 2027
